Navman & Mio Moov Unlock

Tutorial By: Tahtu

Last Edited: JungleJim (Mar 10, 2011 6:29 pm)

Unlocked desktop. Launch programs using icons

Start Menu options are easily configured

<http://navmanunlocked.wikispaces.com/what-is-it> <http://www.wikispaces.com/site/signin?from=http%3A%2F%2Fnavmanunlocked.wiki>

Installation

Navman F10, F15, F25, S-Series, C-Series / Mio Moov-Series

Downloads

- [Mio Moov Unlock](#)

Step 1. - Preparing the device.

Make a backup copy of
your original
directories/files.

<http://navmanunlocked.wikispaces.com/Backup>

Step 2. - Connecting the device.

Connect your device by the
USB cable to your PC.

Step 3. - Installing the Unlock hack.

Please start the setup
program of the
[Mio Moov Unlock](#) .

Click the button "Install
Desktop".

Step 4. - Disconnecting the device.

Use the link to the Windows Explorer to eject the device safely.
Very important!!!

Installation
Navman
iCN-
and
N-Series.

elp/Welcome to NavmanUnlocked Wiki - Unlock

What is NavmanUnlocked Wiki - Unlock?

NavmanUnlocked Wiki - Unlock is a free online encyclopedia where you can find information about NavmanUnlocked Wiki - Unlock. You can also create and edit pages on NavmanUnlocked Wiki - Unlock.

For more information, please visit the NavmanUnlocked Wiki - Unlock page on the NavmanUnlocked Wiki - Unlock website.

as
per
directions
on
the
following
link.
<http://navmanunlocked.wikispaces.com/Backup>

Step

2.

-

Connecting the Navman device.

Windows
XP:
Make
sure
[ActiveSync](#)
is
installed
on
your
PC.

Connect
your
Navman
by
the
USB
cable
to
your
PC.

3.

—

Installing the Unlock hack.

Please start the Navman Unlock setup program on your desktop computer.

On the Navman device you may be asked about the installation location. Please make a double tab to the "Navman_xxx_Unlock.CAB". You will

elp://help.wikispaces.com/whatWikispacesHasToOffer(https://www.wikispaces.com/help/63A%2F%2Fnavmanunlocked.wiki) asked to override it - answer [Yes]. (The .cab file will be removed by the install process later on.)

These devices

elp://help.wikispaces.com/whatWikispaceshas to offer (http://www.wikispaces.com/help?search=)navmanunlocked.wiki

not
have
a
Windows
CE
core.
Unlocking
is
therefore
not
possible.

Notes:

- To start the Navman SmartST navigation program please select "SmartST" from the new Windows start menu.
- If you wish to add new programs to the start

elp/Welcome to NavmanUnlocked Wiki - Unlock

please
put
program
shortcuts
into
the
"Unlock\Programs"
folder.

- If
you
wish
to
see
program
icons
on
the
desktop
of
your
Navman
device
please
put
the
programs
shortcut
into
the
"Unlock\Desktop"
folder.

- Programs
that
you
want
executed
on
each
start
up
of
your
device
should

elp://help.wikispaces.com/WhatWikispacesHasToOffer(https://www.wikispaces.com/help/63A%2F%2Fnavmanunlocked.wiki)

their
shortcut
placed
in
the
"Unlock\Startup"
folder.

- There
is
a
large
list
of
possibilities
for
configuring
the
Navman
Unlock
hack.
